MESSAGE FROM THE PRESIDENT

by Dr. Laretta Manning

I am truly honored to be the 2014 president of Oregon Speech and Hearing Association. This year's lively business luncheon at the convention in Salem showcased the legacy of leaders who have shaped our profession as well as OSHA.

The enigmatic guest speaker, former governor Barbara Roberts, as well as a video presentation of Warren Johnson, Louise Feldman and Joann Smithpeter (thank you John Tracy) outlined the historical perspective of the implementation of licensure. These professionals highlighted the important work that a group of dedicated individuals can accomplish, and made me proud of being a speech-language pathologist, as well as a member of OSHA. It also raised the question - what next?

Legislative Update

by Karen Aguilera, Legislative Committee Chair

The Oregon legislature had a busy year during 2013. Our lobbying team has been working hard with OSHA to respond to proposed legislation and administrative rules in order to support and protect our patients, clients, students, members, and the professions of speech-language pathology and audiology.

governor, Barbara Roberts. And no one in attendance will ever forget the moment when Warren Johnson (OSHA President 1965) took the stage to lecture us on being dumbbells and to remind us that, even at 86, you can't beat sex!

For those members who were unable to attend our Friday business lunch, you can still be a part of the experience. [Click here](#) to read the Governor's speech.

Thanks to everyone who joined us for the fall conference in Salem. This year's conference was a great success with 445 registrants! I am very excited to report that, among them, were more than X0 student attendees, which is an amazing turnout. We are especially grateful to our many student presenters who joined us this year. Many thanks to all of you who attended and made our conference such a success!

Closing in on Universal Licensure for Oregon

by **Wendy Gunter, Ashley Northem & John Tracy**

The executive board of the Oregon Speech-Language and Hearing Association (OSHA) is taking further steps to move speech-language pathologists to a single license to practice in any venue. The core of this strategy is educational in nature. In light of this, the Board sent out a letter to all school district and education service district (SD or ESD) human resources and special education directors to inform them that it only takes a policy change on their part to allow employment of speech-language pathologists licensed by the Oregon Board of Examiners for Speech-Language Pathology and Audiology.
